

SatinSkin: The new LadyRange from Beurer, for smooth skin and bodily comfort

Ulm, 30 May 2022 – Today, having silky smooth and supple skin is considered part of maintaining a well-groomed appearance. For many people, it is something that helps them to feel great about themselves. With the new LadyRange SatinSkin from Beurer, which consists of the HL 16 Facial Hair Remover, the HL 36 Ladies' Shaver and the HL 76 Epilator, everyone can find their preferred method of hair removal. These new products are built to impress, offering a modern, fresh design, ease of use and radiantly beautiful results.

HL 16: Soft skin for a radiant complexion

Facial skin shaving for women – known as dermaplaning – is a Japanese trend that can help women to achieve beautiful skin. The process stimulates cell renewal and revitalization of the outer layer of the skin and also removes dead skin cells. Another

advantage is that it means skincare products are absorbed more quickly into the skin and that make-up can be applied smoothly and flawlessly. The new Beurer HL 16 facial hair remover deals with bothersome facial hair gently and painlessly. The device has two attachments: The shaver attachment can be used flat on the upper lip, chin or cheeks, for example, while the precision attachment is ideal for removing nose and ear hair and for shaping eyebrows. The extra-bright LED light will ensure that even the finest hairs are eliminated. The HL 16 is easy to use with a compact, discreet design. The device can be stored in any handbag, which makes it a practical companion when you are on the move.

HL 36: Gentle shaving and flexible application

When the weather gets warmer, you will often see people with their legs on show. Those who do so will often want their legs to be silky smooth. This is where the new Beurer HL 36 Shaver comes into its own. Because the moving shaver head adapts seamlessly to the contours of your body, it can be used for hair removal all over. The product features a hypoallergenic shaving foil to prevent skin irritation. In bright pink and sophisticated white, this product

will be one of the highlights of your beauty routine. The shaver comes with an exfoliation attachment, two trimmer attachments (4 mm/8 mm) designed especially for the bikini line, and a glider attachment to keep skin comfortable when shaving sensitive areas.

The device is very easy to use, thanks to its extra-bright LED light and practical non-slip handle. A powerful lithium-ion battery ensures a shaving time of 60 minutes. The charging time is 90 minutes. As the shaver is water-resistant, it can also conveniently be used in the shower or bath. The HL 36 features two speed settings, a travel lock and a battery level indicator. It also comes with a storage bag, cleaning brush and charging and storage station.

HL 76: Silky smooth skin for weeks

The HL 76 Epilator completes the Beurer LadyRange and promises smooth skin for weeks at a time. Epilation is ideal for women who want to be hair-free for long periods or whose skin is very sensitive to daily shaving. Many users feel that using the waterproof epilator in the shower or bath is more comfortable, as hair is pulled out more easily when wet. The epilator attachment can be used in conjunction with two additional attachments, including a precision attachment for hair removal in particularly sensitive areas. The HL 76 can also be used for shaving and trimming.

The LadyRange SatinSkin also features in the [new image video](#).

About Beurer

Beurer was founded in 1919 in Ulm and is synonymous with health and well-being. Today, the long-standing company leads the way in several product fields in this segment; the company is a market leader in Europe in the area of flexible heating and a market leader in Germany for blood pressure monitors and massage products. Beurer is also one of the leading suppliers of personal bathroom scales in Europe. This portfolio, which is under constant development in all areas, offers products for use in the home. It includes: personal bathroom scales, kitchen scales, luggage scales, air purifiers, air dehumidifiers, air washers, thermo hygrometers, aroma diffusers, blood pressure monitors, blood glucose monitors, mobile ECG devices, hearing amplifiers, pulse oximeters, nebulisers, clinical thermometers, a sleep sensor, wake up lights, a snore stopper, daylight therapy lamps, infrared lamps, TENS/EMS devices, massage products (foot massage, Shiatsu massage, massage chairs, massage cushions, fascia massage, leg compression massager), relaxation aids, hair removal devices (classic, IPL, laser), FaceCare and HairCare products, a

cellulite releaZer, cosmetics mirrors, manicure/pedicure sets, a BabyCare line, ovulation thermometers, activity sensors and heart rate monitors. USB ports and *Bluetooth*[®] make it possible for a growing number of Connect products to be connected to the expanding Beurer app world and/or software. The family-run company operates a global distribution network in more than 100 countries and currently has a workforce of around 1,700 people. You can find more information at www.beurer.com.
