

SPECIAL FEATURES:

- Small and handy
- With 2 brush attachments for varied applications

FC 48 – Facial brush

The facial cleansing brush FC 48 offers you a gentle and deep cleansing of your skin. The two brush attachments are suitable for all skin types and allow varied applications.

- **2 rotation levels:** circular rotation and oscillating rotation
- **Water-resistant** – can be used in the shower and bath
- **2 speed settings**
- Brush attachment replacements available
- Battery-operated – Incl. 2 x 1.5 V batteries AAA

SPECIAL FEATURES:

- **Blue LED light** reduces skin impurities quickly
- **2 function levels:** vibrating and pulsating

FC 65 Pureo Deep Clear

Thanks to the blue LED light with its anti-inflammatory effect, the FC 65 facial cleansing brush quickly reduces skin impurities.

- **Water-resistant** – can be used in the shower or bath
- **3 speed settings** with indicator lamp for speed display
- **Skin zone timer** for precise application to the skin zones
- With charger
- **Battery level indicator**
- Brush attachment replacements available
- 30 min. operation
- 6h charging

FC 65 Pureo Deep Clear – Blue LED light to combat skin impurities:

Treatment with blue LED light: reduces skin impurities fast. Bacteria react with the blue light (415 nm) and are destroyed. Result: The clogged pores can be supplied with sufficient oxygen again.

For daily facial cleansing and care

SPECIAL FEATURES:

- Small and handy
- With hanging ring for practical storage

FC 45 – Facial brush

The FC 45 facial cleansing brush can be practically stored in the bathroom using the hanging ring and is ideal for travelling due to its compact size.

- Circular rotation
- **Water-resistant** – can be used in the shower or bath
- 2 speed settings
- Illuminated ON/OFF switch
- Brush attachment replacements available
- Battery-operated – Incl. 2 x 1.5 V batteries AAA

SPECIAL FEATURES:

- **Deep-pore cleansing and massage**
- **Water-resistant** – can be used in the shower or bath

FC 49 – Facial brush

The FC 49 facial cleansing brush provides smooth, nourished and fine-pored skin through gentle massage and thorough cleansing.

- **Skin-friendly silicone**
- **Vibration technology** – promotes a smooth, even complexion and stimulates blood circulation in the face
- 15 intensity levels
- **3 cleansing zones** for an individual cleansing
- Automatic switch-off after 15 min.
- Battery-operated – approx. 4h operation

Facial care products for smooth, supple skin

The skin is a reflection of your soul. A smooth, even complexion not only looks clear and nourished, it also gives you the self-assurance necessary for a confident appearance. At one time, these results could only be achieved in a beauty salon; now thanks to the Beurer beauty range you can recreate them easily in the comfort of your own home. We leave nothing to be desired.

Facial care for a glowing appearance

Professional salon-quality method

Optimum facial care and treatment is achieved by combining the facial cleansing brush, microdermabrasion device and facial sauna.

STEP 1: Daily facial cleansing

Give your face a daily deep-pore cleanse with a facial cleansing brush. Then, proceed with a revitalising exfoliation or a steam treatment.

STEP 2: Microdermabrasion once a week

Carry out a revitalising exfoliation and an activating vacuum massage once a week. As you should allow your skin to rest after microdermabrasion, skip STEP 3 and finish the treatment with a skin care product.

STEP 3: Facial sauna

A steam treatment opens the pores, the skin becomes more supple and can absorb valuable active ingredients better.

STEP 4: Skin care products

To conclude the treatment, you can use a mild skin care cream or mask to pamper your skin even more.

Facial cleansing brush for varied applications

Facial cleansing brushes gently cleanse the skin and promote better blood circulation at the same time. Used regularly, facial skin appears clearer and brighter.

More thorough than cleansing by hand

Compared to cleansing by hand, facial cleansing brushes are up to 6 times more thorough. The skin can also absorb active ingredients better.

Practical and hygienic

The brush attachments are removable. This means they can be easily cleaned or also replaced, if required.

Water-resistant

All Beurer facial brushes are water-resistant in accordance with protection class IPX 7. They can even be used in the shower and bath or rinsed under running water.

Rotating, oscillating, vibrating, pulsating

Circular rotation (FC 96, FC 95, FC 48, FC 45) cleanses facial skin particularly gently and **oscillating rotation** (FC 96, FC 95, FC 48) provides outstanding deep cleansing. **Vibration** (FC 65, FC 49) also cleanses the skin particularly well. An even more thorough cleansing result as well as smooth and soft skin is provided by **pulsation** (FC 65).

Blue LED light

Blue light has an anti-inflammatory effect, even within the first 24 hours. We have therefore equipped our facial brush with an optional blue LED light to reduce skin impurities even faster (FC 65).

Skin zone timer

The skin zone timer ensures the optimal application time. It stops every 20 seconds to indicate that it is time to change to a different treatment zone (FC 96, FC 95, FC 65).

Skin zone timer

Application method

- Apply your cleansing gel to your face, wet the facial brush and switch it on.
- The optimum application period per cleanse is 1 minute (20 seconds per application area – see image)
- **Tip:** The FC 95 and the FC 65 have a skin zone timer which automatically stops briefly after 20 seconds.
- Following the treatment, rinse your skin with clean water and continue your facial treatment (see "Professional salon-quality method")

* Dermatological study, 20 women, Institut proDERM Schenefeld/Hamburg, study no. 14.0217-23

SPECIAL FEATURES:

- **LCD display** with battery status display, attachment change display and speed display
