Beurer app world

Intelligent products call for ease of operation and simple evaluation of all data. At any time, from anywhere. Beurer's range of apps covers many topics relating to health, well-being and safety. We have the right app for everyone.

The Beurer Connect product group. All products marked with the Connect button can be connected to a corresponding app or software program, for example to "beurer HealthManager". The connection can take place in the traditional manner via USB cable, or via *Bluetooth*[®] or NFC¹ directly to your end device. This is truly convenient monitoring.

¹Near Field Communication

The right solution for every requirement

Innovative and safe health monitoring

Example of products:

BM 85

GL 50 evo

BF 700

AS 95

„beurer CalmDown“

With the stress releaZer, you can bring body and mind in balance through conscious breathing exercises and gentle vibration massage. The app enables the user to create an individual exercise program with a reminder function. Music, light and warmth also help you to relax. A weekly evaluation of your personal stress level helps you to better understand your own sense of stress. Start your six-week anti-stress program!

Inner balance with breathing exercises

stress releaZer

„beurer BabyCare“

The „beurer BabyCare“ app accompanies you on the exciting initial years with your baby. Track data such as size, weight, body temperature, head circumference, sleep, food, crying, nappy changes, and of course, data on health. The app shows you important parameters in a timeline and provides helpful tips for the daily routine with your baby. Save special moments and memories, and follow the development of your child.

Growing up healthy
and happy

„beurer FreshHome“

Say goodbye to poor air quality! The „beurer FreshHome“ app helps you to have a pleasant and healthy indoor environment at home. In a practical overview of all connected devices, you can see all of the values regarding the day, week, month or year and assess the air quality. If the measured values are outside the set target range, this is reported and you are provided with useful tips to improve the indoor environment in a targeted way.

A comfortable environment
within your home

LR 500

„beurer EMS HomeStudio“

Train without a fitness studio or equipment – more effectively and more efficiently either at home or out in the park. In conjunction with the EM 95, the „beurer EMS HomeStudio“ app is your new personal trainer! A virtual coach guides you through numerous workouts and exercises with you. Simply adapt the training to your personal fitness level or create your perfect workout. Further app features are the display of training progress, trainer feedback, the multi-user option and tablet optimisation.

Achieve your training goals more easily

EM 95

„beurer BodyShape“

Feel good in your body in every way! With the „beurer BodyShape“ app and the corresponding products, you can reach your desired weight with ease, shape your body and learn to eat consciously and healthily.

The „beurer BodyShape“ app will soon be your best friend, training partner and personal trainer bringing motivation and fun.

Get in great shape and reach your ideal weight

„beurer SleepExpert“

Healthy, restorative sleep becomes more and more important as the demands of everyday life increase. Become more familiar with your body's sleeping activities to resolve the causes of possible sleep problems. Everything is better after a good night's sleep!

The Beurer SE 80 sleep sensor provides precise sleep monitoring and analysis – just like a sleep laboratory but from the comfort of your own home.

Enjoy life more after a good night's sleep

SE 80 SleepExpert

in cooperation with:
EarlySense
Proactive Patient Care

„beurer SleepQuiet“

No more sleepless nights! The user-friendly „beurer SleepQuiet“ app enables you to carry out a detailed analysis of your snore behaviour, helping you to reduce your disruptive snoring.

The snore stopper SL 70 and the snore mask SL 60 detect snoring sounds and fix them before your partner is awake!

Restful sleep
without interruption

SL 70

SL 60

„beurer CosyNight“

Warmth isn't just good for the body, it's also good for the soul. With the „beurer CosyNight“ app you can specify heat programs and put together a customised heat program. You can even conveniently switch on the underblanket whilst you are out and about. The two heated underblankets UB 190 CosyNight and UB 200 CosyNight come with a WiFi switch which enables the device to be controlled externally.

Another handy feature is the innovative voice control via Amazon Alexa.

Warm up your bed

„beurer FreshRoom“

The indoor environment affects our daily well-being. With the HM 55 thermo hygrometer you can keep an eye on the indoor temperature and humidity level at all times. Its warning function enables you to always maintain a climate that is comfortable for you.

The „beurer FreshRoom“ app provides clear, long-term monitoring and can even be used for multiple rooms.

Keep an eye on your indoor temperature and humidity level

HM 55

„beurer MyIPL“

Long-lasting, easy and convenient removal of unwanted hair as well as getting a smooth and supple skin. Thanks to the Intense Pulsed Light technology and the beurer IPL hair removal devices, annoying unwanted hair is removed easily.

This intuitive app supports you throughout the entire treatment phase, from adjusting the appropriate energy level to suit your hair and skin characteristics through to creating a personalised treatment plan, including reminder function. For all Beurer IPL products.

Perfect guide for long-lasting hair removal

Example of products:

IPL 7500

IPL 10000+

„beurer LightUp“

Many people struggle with getting up early every day – but with the WL 90 and WL 75 wake up lights you can bring the sunrise directly into your bedroom and can start the day rested. And thanks to the TL 100 daylight therapy lamp, you will not have the winter blues – even when it's dark. All of the products' functions can be easily controlled from your smartphone using this app.

Fresh and rested throughout the day

Example of products:

„beurer CardioExpert“

Precise ECG measurement at home – the ME 90 mobile ECG device and the BM 95 blood pressure monitor with ECG function as well as our free of charge „beurer CardioExpert“ app monitors all your values and maintains a professional dialogue with your doctor.

From the comfort of your own home: ECG competence centre

ME 90

BM 95

„beurer CareCam“

The „beurer CareCam“ app was specially developed for the two Beurer monitors BY 88 Smart Monitor and BY 99 Dual-Video Monitor.

Continuous monitoring at any time, anywhere via smartphone, tablet or PC. Can be used as a baby monitor, when caring for the elderly or for monitoring a room.

Peace of mind at home and on the go
